HireSmart Prototype

Automated Hiring Portal

Presented by Parth Sharma

Internship Project

The Problem with Manual Hiring

Slow Process

Manual screening stretches hiring cycles from days into weeks.

Poor Candidate Experience

Applicants wait with no updates or confirmation.

No Clear Tracking

HR juggles scattered sheets and inboxes to follow progress.

HireSmart: One Portal, Zero Chaos

Everything in one place

A centralized, automated portal with real-time tracking for HR and a smooth experience for candidates.

Centralized portal

Mobile-friendly

Auto-emails

Real-time tracking

Four Features That Power HireSmart

Careers Page

Public job listings

HR Dashboard

One view of the whole pipeline

Built on a Lean, No-Code Stack

Notion

FRONTEND

Google Forms

INTAKE

Google Sheets

DATABASE

Apps Script

AUTOMATION

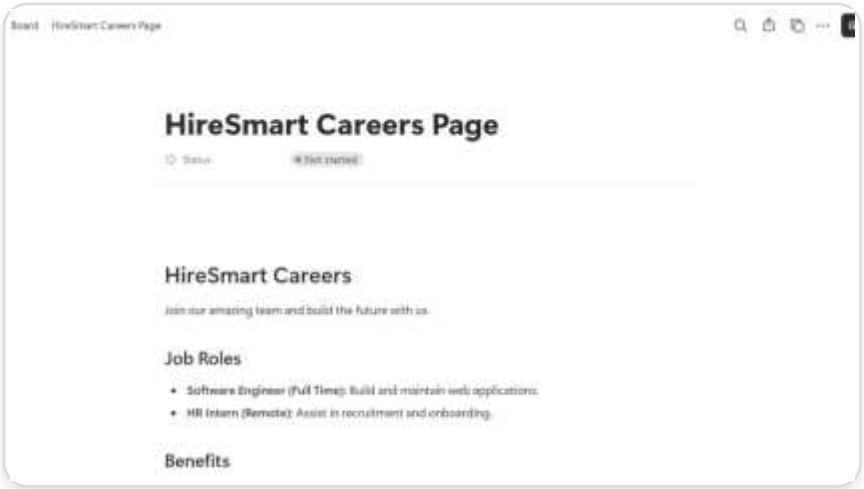

Claude

AI PROMPTS

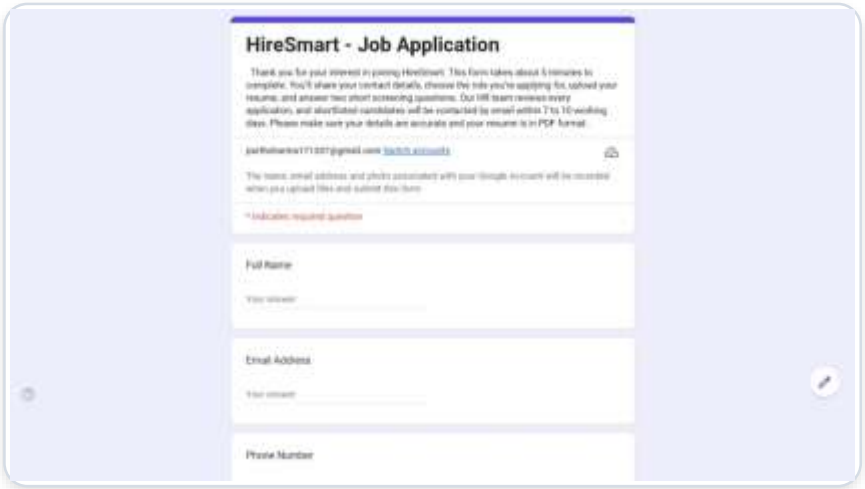

Candidate User Flow

1. Visits Page
2. Clicks Apply
3. Fills Form
4. Gets Auto-Email

Careers Page (Notion)

Application Form (Google Forms)

HR Dashboard Overview

Notion Candidate Tracker (Table view)

Applied | **Shortlisted** | **Interview** | **Hired**

Table View
Sort, filter, search

Kanban Board
Drag across stages

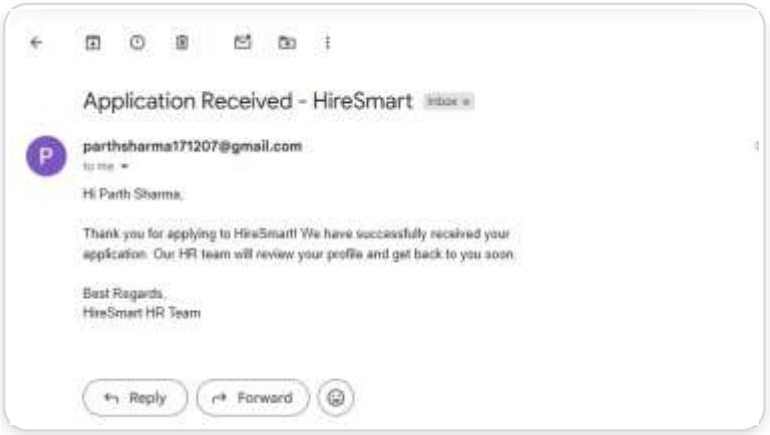

Status Tags
Applied to Hired

AI Score
Ready for ranking

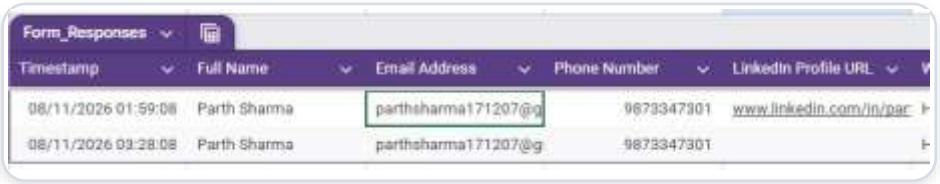

Automation Workflow

Form submitted > **Trigger fires** > **Script reads data** > **Email sent**

Gmail: Auto-Email

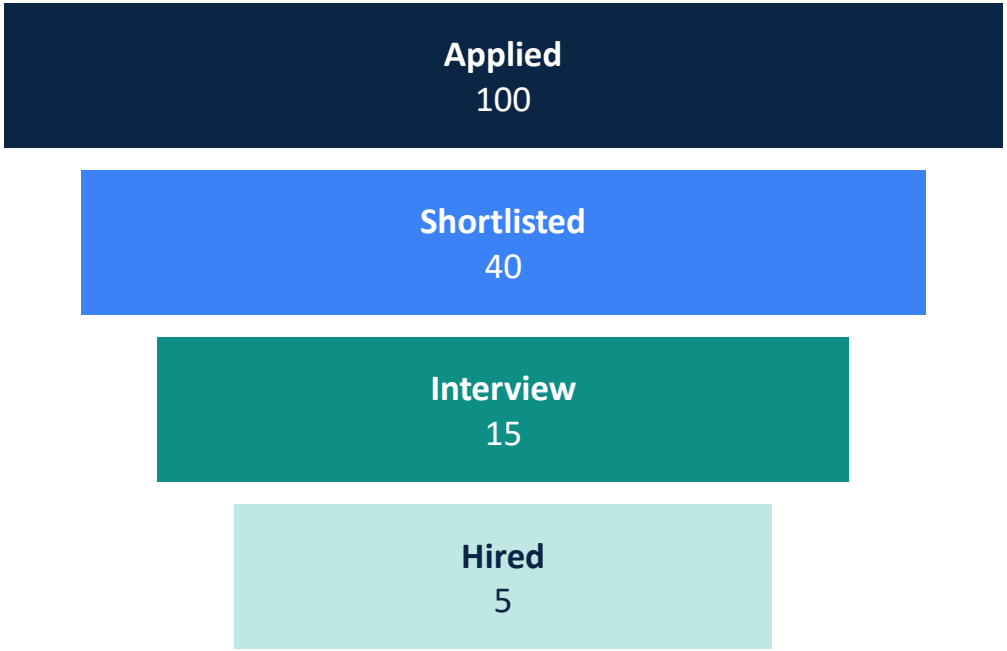

Google Sheet: Form Responses

- Every submission is logged as a new row
- Apps Script sends the confirmation instantly

Tracking the Hiring Funnel

All incoming applications

Candidates who meet the role criteria

Candidates in active evaluation

Candidates selected for the role

Illustrative figures for demonstration

Challenges and How I Solved Them

CHALLENGE

Apps Script permissions

SOLUTION

Authorized the script and set up the form-submit trigger

CHALLENGE

Notion database setup

SOLUTION

Redesigned properties and status fields for clean tracking

Each obstacle sharpened my problem-solving.

Key Learnings

01

No-code automation works

Forms, Sheets and Apps Script replaced manual steps.

02

UI/UX matters

A clear careers page and short form keep applying simple.

03

Building from scratch builds ownership

Every decision, from structure to workflow, was mine.
